

ALL NIGHT LONG

Do you think about us
In a secret place
(Ah, ah)
Do you see my eyes
In every face
(Ah, ah)

You wish you would've touched me
Forever my taste on your lips
(Ah, ah)
You wish you would've kissed me
You almost did

This is me burning
This is me burning

All night long
Calling your name
Waiting at home
All night long
Calling your name
This is me burning

Oh, spread my wings
Engulf my heart
(Ah, ah)
When good gets bad
Tell me where you are
(Ah, ah)

You wish you would've touched me
Forever my taste on your lips
(Ah, ah)
You wish you would've kissed me
You almost did
(Ah, ah)

This is me burning
This is me burning

All night long
Calling your name
Waiting at home
All night long
Calling your name
This is me burning

Save me 'cause you set my heart ablaze
If it's real love it's never a mistake

This is me burning
(Ah)
This is me burning
(Ah)

All night long
(Aah)
Calling your name
Waiting at home
All night long
(Aah)
Calling your name
This is me burning

(Aah)
Calling your name
Waiting at home
All night long
(Aah)
Calling your name
This is me burning
