

MACHINE

(Ah, ah, ah, ah)

Getting rid of bad men
Like wipers and rain
(Hm, hm, hm)

I've got a telescope, too
I know where they stay
(Oh yes)

I live in a vacuum room
To save my feelings
(Aah)
I come in black, the way you like
Engineering
(Haaa)

**Bigger wheels, better guns
Tricks, switch, sick shit
I run with no gasoline**

**Buttons for any kind of fun
Run, hunt, hot fun
Honey, I'm a machine**

Bombshell outside
No need your attention
(Hm, hm, hm)
Light speed inside
They say I'm a phantom
(Phantom)

Honey, any kind of ringtone
I know what they like
(Ding dong, ding dong)
And when they're all gone
I'll still be here to ride
(Watch me)

**Bigger wheels, better guns
Tricks, switch, sick shit
I run with no gasoline**

**Buttons for any kind of fun
Run, hunt, hot fun
Honey, I'm a machine**

Eh

Eh

Eh

Eh

Watch me

**Bigger wheels, better guns
Tricks, switch, sick shit
I run with no gasoline**

**Buttons for any kind of fun
Run, hunt, hot fun
Honey, I'm a machine**
