

IN NEW YORK

All the people
Stand in line
Get it moving
Just in time
No one ever will come up short

Never wanted
To be elsewhere
This is just right
Oh yeah, I swear
Don't wanna be anywhere but in New York

Happy in New York
Gotta love New York
Feels like home
A new home

(Oh, oh, oh)
Come over 'n fall in love with this city
It turns you into something
Totally brand new

(Oh, oh, oh)
Come over 'n fall in love with this city
It turns your mind to a playground
Where your dreams come true

In New York
In New York

(Hmmm)

All I wanted
Lays on these streets
I'm just humming
Its whispers
Then I know the world begins right here

Happy in New York
Gotta love New York
Feels like home
A new home

(Oh, oh, oh)
Come over 'n fall in love with this city
It turns you into something
Totally brand new

(Oh, oh, oh)
Come over 'n fall in love with this city
It turns your mind to a playground
Where your dreams come true

In New York
In New York
In New York
Where your dreams come true
(Oh, oh, oh)
In New York
In New York
In New York
Where your dreams come true

You're so deep
(You're so high)
Golden lights
(In silver sky)
Dreams will make the makers climb
You're so bright
(You guide the way)
Grayish looks
(On yellow days)
Fills every empty face

(Oh, oh, oh)
Come over 'n fall in love with this city
It turns you into something
Totally brand new

(Oh, oh, oh)
Come over 'n fall in love with this city
It turns your mind to a playground
Where your dreams come true

In New York
In New York
Where your dreams come true
In New York
In New York
In New York
Where your dreams come true
In New York
(Where your dreams come true)
Yea-eah
In New York
