

MESSED UP

Every smile I try to put on
Doesn't bring any profit
Every door I try leads me to
A broom closet

Fuck, I'm stuck
(I'm stuck)
Again
(Again)
Time spent
(Time spent)
Well, it is what it is
(It is)
Losing
(Losing)
My shit
(My shit)

**This is this messed up season
Trying to do my reasoning
Trying to get around**

**This is this messed up person
That's why I am walking
With my head down**

**With my head down
To get out of town
With my head down
To get around**

Every time I try to reach out
Comes with side effects
Every new trial with you
Is far from perfect

Fuck, I'm stuck
(I'm stuck)
Again
(Again)
No amends
(No amends)
Well, I am just like this
(Like this)
A little bit
(Little bit)
Off script
(Off script)

**This is this messed up season
Trying to do my reasoning
Trying to get around**

**This is this messed up person
That's why I am walking
With my head down**

**Walking with my head down
(Walking with my head down
Walking with my head down
Walking with my head down
Walking with my head down
Walking with my head down
Walking with my head down
Walking with my head down)**

This is this messed up grievance
Such a dangerous treason
No one comes around

I once thought we're break-even
But now that I am leaving
The ship runs aground
