

DROWNING KING

Look how my words disappear
Struggle to say them out loud
In this crowded place
Let them bards sing about

Look how we started, then failed
As quick as a knight's cut
I was like the wind
His faith faded to dust

It's time to leave
Where shall I go
Now that I'm in disbelief

Blank books we filled
Back when I didn't know yet betrayal exists

**I've been a queen
I've been a queen
For a drowning king**

**I've been a queen
I've been a queen
For a drowning king**

Look how I learned to sneak away
Like a knight in disguise
Always so on guard
Staying away from the light

We tried to build a castle
It collapsed under the strain

Screams on the streets
His temper made me run through the
midnight rain

**Oh, I've been a queen
I've been a queen
For a drowning king**

**I've been a queen
I've been a queen
For a drowning king**

Never coming back
No season changes that
Been puzzling back together my heart

A deluge of thoughts
Trying to fix my flaws
Unpin his emblem 'cause it's so full of
blood

We run "high-speed" on glowing coals
We couldn't see through the steam

No good bye look
Eyes shut when his head rolled down the
guillotine

**Oh, I've been a queen
I've been a queen
For a drowning king**

**I've been a queen
I've been a queen
For a drowning king**

**Oh, I've been a queen
I've been a queen
For a drowning king**

I've been a queen
