

AND THEN THERE'S ME

Listen darling
There're two kinds of people out there
And then there's me
And then there's me

Why would you want to put it all in movies
If you can't see
If you can't see

But I didn't come to have it once again
At least the movie had a "happy end"

Just look at them
Trying to find a meaning
Falling for the trend in season
Maybe without any reason
And then there's me

Then there's me
Then there's me
Then there's me

They find answers to all questions and feel
good
And then there's me
And then there's me

Walking in straight lines to keep it all
together
But flexibility
Is the whole key

But you know I can't make my words
unsaid
At least the road goes always straight
ahead

Just look at them
Trying to find a meaning
Falling for the trend in season
Maybe without any reason
And then there's me

Then there's me
Then there's me
Then there's me

Any shade of color and patterns on their
face
And then there's me
And then there's me

Hit the ground running and then risking
everything
Oh, this sounds like me
It's definitely me

It's nothing new, I might be someone else's
trophy
At least it's gonna shine long
(After me)
After me

Oh, oh, oh
Then there's me
(Then there's meee)
Then there's me
Then there's me
Oh

Listen darling
There's life and there're movies
And then there's me
And then there's me
And then there's me
And then there's me
